# SLAB GRABBER

*For jobsite construction of temporary guardrails. Ideal for concrete decking applications.*

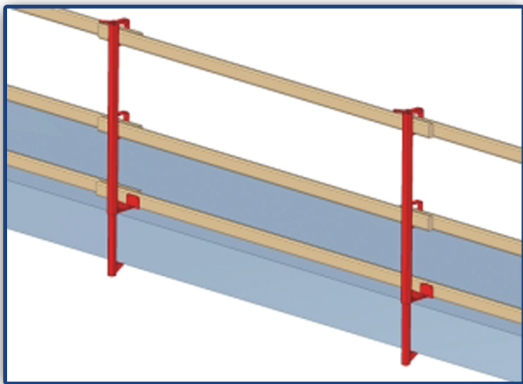

**Deslauriers heavy duty adjustable steel guardrail stanchion for use with concrete slab. Quickly adjust to concrete slabs up to 36".**

**Top and mid-rail brackets will accommodate 2x4s and 2x6 wood rails or cable and 2x4 toe board.**

- Rugged steel construction with internal 1/2" coil rod for positive grip on slab.
- Does not require slab penetration.
- Adjustment screw allows for use with up to 36" slabs.
- Requires 20ft/lbs of torque to secure Slab Grabber to slab edge.
- Plate to mount toe board when required.
- One piece construction for easy installation.
- Height of guardrail stanchion from top of slab to top of rail is 46".
- SG-SLAB is 25lbs.
- Maximum spacing of 8 feet per OSHA spec.
- Meets all applicable OSHA and ANSI standards.

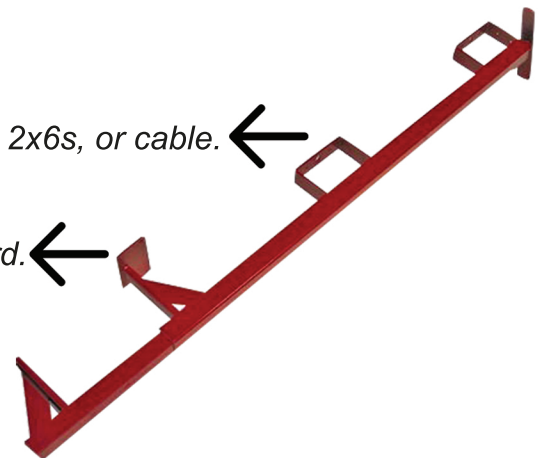

**CAT#: SG-SLAB**

*Brackets to accept 2x4s, 2x6s, or cable.* ←

*Plate for attaching toe board.* ←

*Installation:* Since the use and installation of the Deslauriers' Slab Grabber is beyond the knowledge and control of Deslauriers, the proper use of these products is the responsibility of the user. The user should be familiar with the appropriate codes and safety regulations.
