

# SCAFFOLD CLIP

**THE DESLAURIERS SCAFFOLD CLIP** is used to secure poly sheeting to scaffolding. Be sure to protect your employees and equipment from plummeting temperatures and increasing winds during the fall and winter months.

The Deslauriers Clip L is designed to break away from the scaffold structure under high wind to prevent it from acting like a sail and pulling the scaffold structure over.

- Standard 11" length
- Resuable
- Inexpensive
- Internal ribbing helps to grab poly
- Chamfered corners to protect poly
- Saves time and material

**CAT#: CLIP-L**  
100 pcs/carton
