

DOKA BULLNOSE ADAPTER

THE DESLAURIERS DOKA FORM BULLNOSE ADAPTER will allow Deslauriers standard column forms to be used with Doka Framax wall panels and a Doka wall form clamp.

The Deslauriers Doka Bullnose Adapter is designed to draw Deslauriers round column forms flush with the inside of the Doka Framax wall panel after securing the clamp.

The Doka Adapter is held in place by a slot that acts as a pinning point for the Doka clamp keeping it from sliding during installation.
