

PROTECTIVE COVER ADAPTER

Cover more rebar for less!

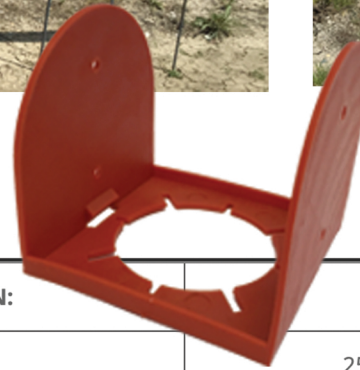

THE PROTECTIVE COVER ADAPTER is designed to snap on DISC-10 or HH-M protective covers and create a saddle into which double 2x4s are secured to create a system to protect a row of in-line rebars (for Rebar #3-#11).

THE PROTECTIVE COVER ADAPTER LARGE (PCA-L) is designed to snap on DISC-10 or HH-M protective covers and create a saddle into which double 2x6s are secured to create a system to protect a row of in-line rebars (for Rebar #3-#12).

- Approved by California OSHA #C1718AG and OSHA #1722AG.
- Complies with Federal OSHA 701 (b).
- Federal OSHA has ruled that if cover is in compliance with Cal OSHA, then it conforms to Fed. 701 (b).
