

CUSTOM SHIMS

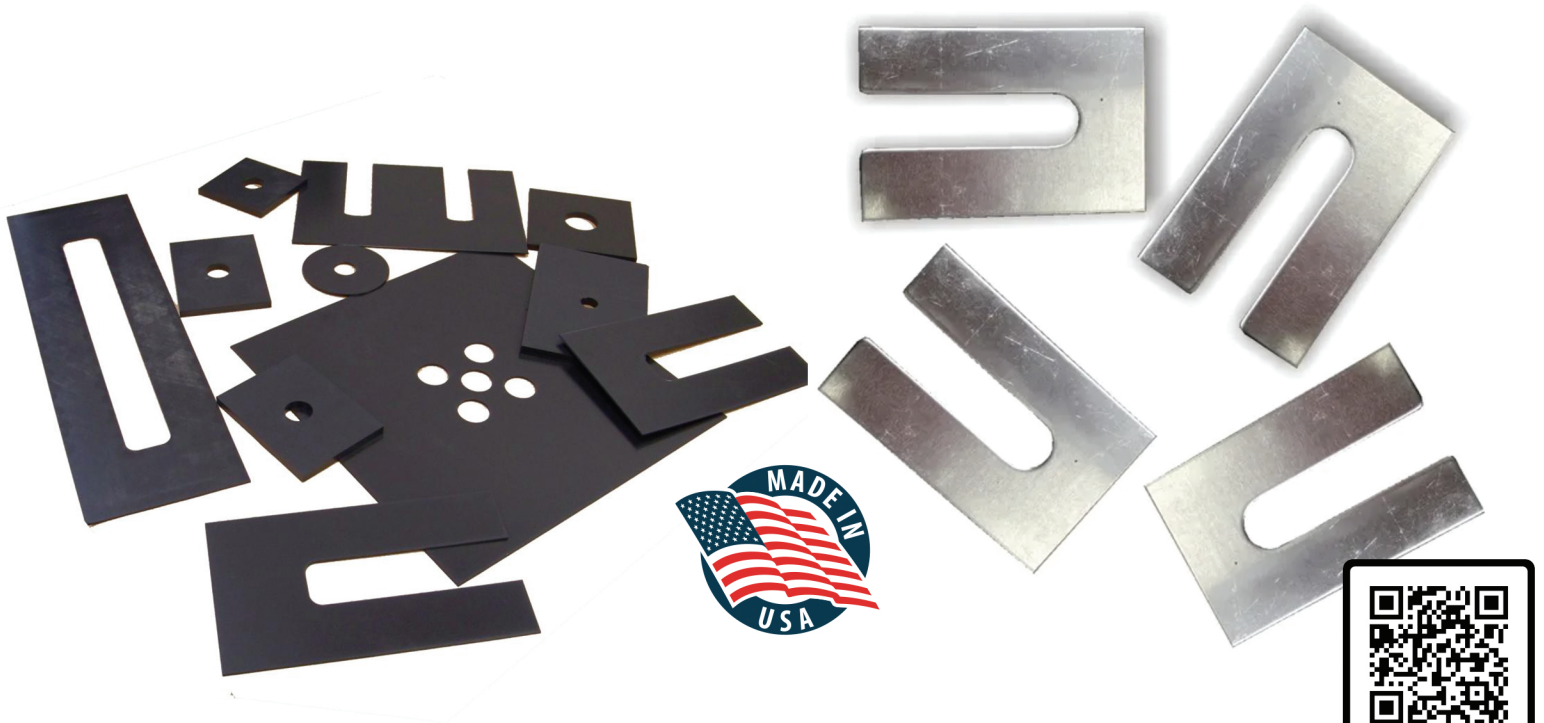

PLASTIC AND METAL

Deslauriers has the capability to meet any of your shim requirements.

Our Lagrange Park, IL facility uses water jet and laser cutting technology to manufacture short runs of custom designed plastic shims. For large runs of plastic shims, our injection molding facility can design and build the necessary tooling to mold an unlimited quantity of your custom shim to exact dimensions.

Our metal fabricating facility located in Naperville, IL can fabricate short runs of special steel, aluminum, stainless, and brass shims to meet your metal shim requirements.

At Deslauriers we're customer focused and can create a solution to fit your needs and price parameters. Please call or email us at sales@deslinc.com for a quote.
