CURE PLUS 3

THE CURE PLUS 3 concrete curing box is thermostatically controlled to ensure specified curing temperatures are maintained during the initial field curing for up to 48 hours.

Designed to maintain the curing environment in the specified 60°F to 80°F range without the use of water.

- Perfect for curing test specimens in all seasons.
- Outside controller makes it easy to monitor temperature.
- Adjustable thermostat. Can program two different desired temperatures.
- Accommodates (12) 6x12" cylinders or (28) 4x8" cylinders.
- Also ideal for keeping tubes of caulks, sealants & adhesives in a pliable working condition during colder weather.
- Has wheels making it easy to move.
- ASTM C31 & AASHTO T-23 compliant.
- Includes Digital Min/Max Thermometer (meets ASTM C1064)
- **IMPORTANT:** Do not use water with the Cure Plus 3.
