

PATCH CAPS

Use **PATCH CAPS** to cover the recess voids that house lifting assemblies. Patch caps eliminate the need of mixing expensive mortar mixes and the use of costly skilled labor. The Deslauriers' Patch Caps are designed to snap into place, are precision molded in the USA, and made from chemical resistant high impact plastic.

CAT#: PC-2T --2 ton coil; 4" dia.

CAT#: PC-4T --4 ton coil; 6" dia.

CAT#: PC-8T --8 ton coil; 6" dia.
