CURE MAX

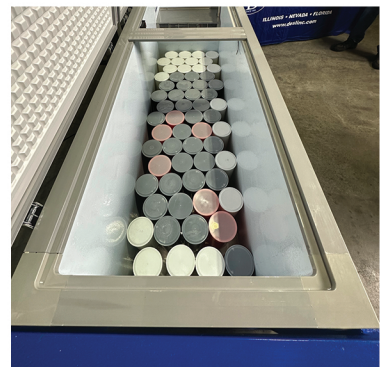

THE CURE MAX is thermostatically controlled to ensure specified curing temperatures are maintained during the initial field curing for up to 48 hours. Designed to maintain the curing environment in the specified 60°F to 80°F range *without the use of water*.

- 60x19x24
- Perfect for curing test specimens in all seasons.
- Adjustable thermostat - can program two different desired temperatures.
- ASTM C31 and AASHTO T-23 compliant.

Accommodates 27
6x12" cylinders

OR

Accommodates 60
4x8" cylinders
