

WASHOUT PAN

Designed for trailer pumps, mixer trucks, priming, and boom trucks. Washout pan fits in the back of a pickup truck, can be handled by one person, and eliminates the use of a release agent for a hassle free clean out. Washout pans are reusable. We recommend the larger washout pan (WOP-02) for use with boom trucks. Additional uses include spill containment and materials handling.

- Tough, lightweight MDPE material. The smaller washout pan weighs only 57 lbs making it 800% lighter than the metal alternative. The larger washout pan weighs 98lbs making it 700% lighter than a metal pan of a similar size.
- MDPE material is chemical, heat, cold, and impact resistant.
- Comes fully rigged with lift strap and metal hardware.
- 4 way accessible lifting design.
- Fits in the bed of most standard full size trucks.
- Features a stackable design so 20 pans can fit in one pickup truck!

CAT#: WOP-01 - 62" L x 55" W x 12" T (small)
.75 cubic yards / approx. 130 gal.

CAT#: WOP-02 - 67.5" L x 61.5" W x 16" T (large)
1.2 cubic yards / approx. 240 gal.
